

PROGRAM OVERVIEW

This program is intended for cranes with a lighter capacity using basic rigging and minimal attachments.

The Safe-Tech Overhead Crane 4 Instructor Refresher Program is designed to fulfill the knowledge requirements of an Overhead Crane Trainer and to instructor participants on how to provide effective training and conduct evaluations of your Overhead Crane operators. Training is specific to the equipment types used in your operation. To assist in building an effective classroom theory program, a comprehensive Power Point is provided.

PREREQUISITES

This program is suitable for personnel who have previously completed a full comprehensive Overhead Crane Instructor Program. Instructor candidates must be competent on all overhead cranes and attachments that they will be required to instruct on. Participants should be effective communicators with strong verbal and directional skills.

COMPLIANCE

Safe-Tech programs meet or exceed all relevant CSA Standards, applicable Federal/Provincial regulations and Ministry of Labour Guidelines.

PROGRAM INCLUDES

- Written examination
- Practical operator instruction and testing
- Record of training report
- Individual wallet Certificates (for course participants)
- Printed Power Point Presentation
- Upon completion of the course the following information will be electronically transferred to the booking contact: PowerPoint Presentation, Written Exam, Progress Evaluation (Practical Training Form), Practical Operator Test, Pre-Shift Inspection Forms, Safety Rules, Wall Certificate Template.

CLASSROOM TRAINING CONTENT

- Applicable legislation and guidelines
