

PROGRAM OVERVIEW

The Safe-Tech Basic Hoisting Instructor Program covers rudimentary operations focussing on basic hoisting practices such as battery changing and work station applications. Participants will be provided with the necessary knowledge and skills to provide effective training and evaluation on your specific hoist(s), attachments and related components. Training includes both in-class and practical components.

PRE-REQUISITES

Instructor candidates should be competent on all hoist types that they will be required to instruct on and possess effective communication and directional skills.

COMPLIANCE

Safe-Tech programs meet or exceed all relevant CSA Standards, applicable Federal/Provincial regulations and Ministry of Labour Guidelines.

PROGRAM INCLUDES

- Written examination
- Practical operating instruction and testing
- Record of training report
- Individual wallet certificates (for course participants)
- Print out of Power Point Presentation
- Upon completion of the course the following information will be electronically transferred to the booking contact: PowerPoint Presentation, Written Exam, Progress Evaluation (Practical Training Form), Practical Operator Test, Safety Rules, Wallet Certificate Template.

TRAINING CONTENT

- Current applicable legislation and guidelines
- Hazard awareness
- Basic equipment and design principles
- Pre-shift equipment inspections
- Safe hoisting/operating techniques
- Occurrence/damages causes
- Internal responsibility
- Capacity ratings
- Equipment applications
- Pedestrian/operator safety

LANGUAGE COMPREHENSION

Safe-Tech programs are conducted in English and best suited for participants with good English comprehension. Please advise our office at the time of booking and prior to the start of the course of any comprehension concerns or if you will be providing a translator when warranted. The instructors will do their best to accommodate, however Safe-Tech cannot be held responsible for any situation where comprehension was a factor due to a language barrier or impediment.

DURATION & LOCATION

- 1 to 1 ½ days at your location. (Time required for practical component is dependent upon types of equipment and number of participants).
- Optional additional day includes a Safe-Tech instructor coaching and providing feedback to your trainee(s) during mock sessions or assisting trainer with their first classroom session with your operators.

SAFE-TECH ADVANTAGES

Safe-Tech is the Working at Height and Equipment Training Partner of **Workplace Safety & Prevention Services** and many of our programs are MOE Director approved.

- Safe-Tech programs meet or exceed all pertinent standards and regulations.
- On-Site programs are offered on any shift, 24/7, without shift premiums.
- Our unique training techniques incorporate exclusive custom models and visual aids which enhance interest and facilitate higher comprehension & retention levels for all participants.
- Supervisors, managers, J.H.S.C. members who do not use or operate equipment but are responsible for implementing or enforcing safety policies may attend our programs at no charge (some exceptions apply).
- Our internal data management and tracking system automatically notifies clients at least 30 days before personnel are due for applicable recertification.
- Safe-Tech is the first and only training company in the industry to offer a *satisfaction guarantee*. *“If the content or presentation of any Safe-Tech program is not to your complete satisfaction, there will be no charge”.*
