

PROGRAM OVERVIEW

The Safe-Tech Elevated Work Platform Program is suitable for new and existing operators and consists of a 4 hour in-class session followed by practical operator training/testing. Participants will be provided with the necessary knowledge and skills to correctly and safely operate the scissor lifts and/or boom type equipment specific to your operation. Fall protection training is required as a pre-requisite.

COMPLIANCE

- i) CSA Standard: *B354:17 Mobile Elevating Work Platforms*, require that only qualified personnel who have been trained regarding the inspection, operation, and application of an aerial platform, including the recognition and avoidance of hazards associated with the operation, shall operate an aerial platform.
- ii) Safe-Tech programs meet or exceed all relevant CSA Standards, applicable Federal/Provincial regulations and Ministry of Labour Guidelines.

PROGRAM INCLUDES

- Classroom theory training
- Practical operator testing on up to 2 pieces of equipment or attachments (providing both tests take place at the same time & location during the initial scheduled testing date)
- Record of training report
- Written examinations
- Signed safety rules from each participant
- Individual wallet certificates (for participants with 80% passing score on both written and practical tests)
- Wall certificate for company

CLASSROOM TRAINING CONTENT

- Current applicable legislation
- Vehicle stability
- Causes of accidents and injury
- Stabilizer systems
- Operator responsibility
- On-slab versus rough terrain
- Pedestrian awareness
- Power line clearances
- Fall protection requirements
- Capacity plates
- Control systems
- Pre-shift inspection and reporting procedures
- Work site inspection
- Hazard awareness

LANGUAGE COMPREHENSION

Safe-Tech programs are conducted in English and best suited for participants with good English comprehension. Please advise our office at the time of booking and prior to the start of the course of any comprehension concerns or if you will be providing a translator when warranted. The instructors will do their best to accommodate, however Safe-Tech cannot be held responsible for any situation where comprehension was a factor due to a language barrier or impediment.

DURATION & LOCATION

- 4 hour in-class theory held on-site at your location;
- Practical testing is typically 30 minutes per person based on one piece of equipment.

PRACTICAL TESTING (FOR EXISTING OPERATORS)

Practical operator testing is held on-site at your facility and typically follows the in-class session. Operators are tested individually and put through a series of operating tasks and manoeuvres to assess competency and safety awareness on the equipment. Pre-shift inspection and reporting procedures are also covered. Average testing time is approximately 30 minutes per operator. Additional time will be required for testing on 2 or more types of equipment.

PRACTICAL TRAINING (FOR NEW OPERATORS)

Participants with limited or no practical operating experience will require practical training prior to practical testing. The duration of practical training varies based on equipment type(s) and aptitude of the operator. Practical training is an additional charge to this program and should be pre-scheduled.

SAFE-TECH ADVANTAGES

Safe-Tech is the Working at Height and Equipment Training Partner of [Workplace Safety & Prevention Services](#) and this program is Ministry of the Environment Director approved (0.4 CEUs).

- Safe-Tech programs meet or exceed all pertinent standards and regulations.
