

### PROGRAM OVERVIEW

The Safe-Tech Loader/Skid Steer Operator Training Program consists of a 4-hour classroom training session presented in an interactive format which covers all aspects of loader/skid steer safety and operation. An on-site individual practical operating test will follow where unsafe or incorrect operating techniques are identified and corrected and pre-shift inspection procedures are reviewed. This program will provide the participant with the necessary knowledge to safely and correctly operate your specific equipment.

### COMPLIANCE

Clause 25(2) (a) of the OHSA (Occupational Health and Safety Act) places an obligation on an employer to "provide information, instruction and supervision to a worker to protect the health or safety of the worker". Regulation 851 (industrial), Regulation 213 (construction), Regulation 854 (mining) is more specific and states that a lifting device is only to be operated by a competent person. "Competent person" is defined by the OHSA as someone who:

- a) is qualified because of his knowledge, training, and experience to organize the work and its performance,
- b) is familiar with the provisions of this Act and the regulations that apply to the work, and
- c) has knowledge of any potential or actual danger to health or safety in the workplace.

### PROGRAM INCLUDES

- In-class training
- Practical operator testing on up to 2 pieces of equipment or attachments (providing both tests take place at the same time & location during the initial scheduled testing date)
- Record of training report
- Written examinations
- Signed safety rules from each participant
- Individual wallet certificates (for participants with 80% passing score on both written and practical tests)
- Wall certificate for company

### CLASSROOM TRAINING CONTENT

- Current applicable legislation and guidelines
- Hazard awareness
- Equipment/attachment designs
- Pedestrian awareness
- Start-up/shut-down procedures
- Stock piling
- Transporting equipment
- Parking
- Occurrence/damage causes
- Internal responsibility
- Stability principles
- Pre-shift inspection details
- Standard operating guidelines
- Snow clearing
- Re-fuelling
- Testing

### LANGUAGE COMPREHENSION

Safe-Tech programs are conducted in English and best suited for participants with good English comprehension. Please advise our office at the time of booking and prior to the start of the course of any comprehension concerns or if you will be providing a translator when warranted. The instructors will do their best to accommodate, however Safe-Tech cannot be held responsible for any situation where comprehension was a factor due to a language barrier or impediment.

### DURATION & LOCATION

- 4 hour in-class theory held on-site at your location and;
- 30-minute practical operating test on-site at your location on the operator's regularly scheduled shift (additional time will be required for testing on more than 2 pieces of equipment or attachments).

### **PRACTICAL TESTING (FOR EXISTING OPERATORS)**

Practical operator testing is held on-site at your location and is scheduled following the classroom training. The operator is tested individually and put through a series of operating tasks and manoeuvres to assess competency and safety awareness on the equipment. Pre-shift inspection and reporting procedures are also covered. Average testing time is approximately 30 minutes per operator. Additional time will be required for testing on more than 2 pieces of equipment or attachments.

### **PRACTICAL TRAINING (FOR NEW OPERATORS)**

Participants with little or no practical operating experience will require practical operator training prior to practical testing. The duration of practical training varies based on equipment type and aptitude of the operator. Practical training is an additional charge to this program and must be pre-scheduled.

### **SAFE-TECH ADVANTAGES**

Safe-Tech is the Working at Height and Equipment Training Partner of [Workplace Safety & Prevention Services](#) and this program is Ministry of the Environment Director approved (0.4 CEUs).

- Safe-Tech programs meet or exceed all pertinent standards and regulations.
- On-Site programs are offered on any shift, 24/7, without shift premiums.
- Our unique training techniques incorporate exclusive custom models and visual aids which enhance interest and facilitate higher comprehension & retention levels for all participants.
- Supervisors, managers, J.H.S.C. members who do not use or operate equipment but are responsible for implementing or enforcing safety policies may attend our programs at no charge (some exceptions apply).
- Our internal data management and tracking system automatically notifies clients at least 30 days before personnel are due for applicable recertification.
- Safe-Tech is the first and only training company in the industry to offer a *satisfaction guarantee*. “If the content or presentation of any Safe-Tech program is not to your complete satisfaction, there will be no charge”.
