

### PROGRAM OVERVIEW

The Safe-Tech Overhead Crane Practical Trainer program will qualify the participant(s) to conduct internal practical instruction and evaluation for new or experienced operators. This program is suitable for previously certified operators who possess good communication skills and are competent on all overhead cranes and attachments used at your location. Program includes an in-class theory component and practical instruction on the equipment. Please note this program does not qualify the participant to conduct the theory component of an Overhead Crane Operator training program.

### COMPLIANCE

Safe-Tech programs meet or exceed all relevant CSA Standards, applicable Federal/Provincial regulations and Ministry of Labour Guidelines.

### PROGRAM INCLUDES

- Record of training report
- Written examinations
- Safety rules
- Individual wallet certificates (for participants with 80% passing score on both written and practical tests)
- Wall certificate for company
- Overhead Crane Operator Training Manual, equipment specific pre-shift inspection forms, operator evaluation forms and practical operating tests

### TRAINING CONTENT (INCLUDES REFRESHER ON):

- Current applicable legislation and guidelines
- Hazard awareness
- Basic equipment and design principles
- Pre-shift equipment inspections
- Types of hardware
- Safe hoisting/operating techniques
- Hand signals for slingers and operators
- Internal responsibility
- Capacity ratings/load weight calculations
- Equipment applications/rigging
- Pedestrian/operator safety
- Hitches and angles
- Turning/flipping loads safely

### LANGUAGE COMPREHENSION

Safe-Tech programs are conducted in English and best suited for participants with good English comprehension. Please advise our office at the time of booking and prior to the start of the course of any comprehension concerns or if you will be providing a translator when warranted. The instructors will do their best to accommodate, however Safe-Tech cannot be held responsible for any situation where comprehension was a factor due to a language barrier or impediment.

### DURATION & LOCATION

- 1 to 1 ½ days at your location. (Time required for practical component is dependent upon types of equipment and number of participants).
